FOREWORD

The Collection of Chinese and Japanese Art Objects has been formed over a period of thirty years by Mr. Walter Peirson of Radnor, Pa. It represents the result of patient accumulation, and selection, and each item has been carefully chosen in quality.

We wish to draw attention to the following articles, A very well selected group of Snuff Bottles. The Ivories are most attractive, and interesting. The Hard Stone Carvings are important, including Jade, Rock Crystal, Amethyst, Agate, Lapis-Lazuli, a green translucent Jade Vase of the Chien-Lung dynasty, from the Henry E. Huntingdon Collection, also a flawless Crystal Sphere, four and three quarter inches in diameter. The greater portion of the Collection was secured from the impoverished members of the old Imperial Court.
